SUNDAY AFTERNOON
Nontraditional Careers in Chemistry
10:35 Intermission.
11:05 6. Training student peer leaders with sound pedagogy. J. S. Blackerby, P. Varna-Nelson
11:45 8. Professional development opportunities for two-year college chemistry faculty: Having your cake and eating it too. S. J. Donnelly
12:05 Concluding Remarks.

TUESDAY MORNING
Nanostructured Materials for Future Therapy
11:00 9. Noncanonical amino acids in time-resolved proteomic analysis. D. A. Terrill
12:00 Boxed Lunch (available for purchase through registration)
12:15 6. Finding a home at the NSF for your chemical biology proposal. W. Colón

MONDAY AFTERNOON
Section A
10:15 4. Modern synthetic biology: Darwin from the atom up. S. A. Benner
9:20 2. Synthetic biology with DNA-lipid conjugates. S. G. Boxer
10:00 3. Proteins without alpha amino acids. A. Scheppartz

SOCIAL EVENTS:

SUNDAY AFTERNOON
Global Energy Challenges in the 21st Century
10:00 3. Advanced materials for sustainable energy. C. H. Bertozzi
10:40 4. New materials for energy conversion and storage. C. H. Bertozzi
12:00 Boxed Lunch (available for purchase through registration)
12:15 6. Finding a home at the NSF for your chemical biology proposal. W. Colón

MONDAY MORNING
11:20 4. Modern synthetic biology: Darwin from the atom up. S. A. Benner
9:20 2. Synthetic biology with DNA-lipid conjugates. S. G. Boxer
10:00 3. Proteins without alpha amino acids. A. Scheppartz
12:00 Boxed Lunch (available for purchase through registration)
