

## Greetings and felicitations!

It's been another great year for *Modern Drug Discovery*, our sixth, and those of us on the *MDD* editorial team would like to take a moment to thank our readers and advertisers who have made success possible. Reporting on the accomplishments of the drug discovery industry is a challenging task. Stories can range from computers to chromatography to chemical chirality. In each issue, using the creativity of our designers and the expertise of our editors, we work hard to make every story

understandable to all our readers whether at the bench or in the boardroom. Your comments tell us that we succeed.

In this, our last issue in 2003, we want to say that it has been a privilege and an honor to serve you the readers this year, and we appreciate the support of this industry's leading advertisers. We wish everyone the best in 2004.
